

## Outcomes statement for the academic year of 2021 – 2022

It is Longdon Park School’s aim to harness passions, unlock abilities and realise potential through the delivery of individualised learning pathways to support pupils and their families.

Our students enjoy access to highly ambitious and individualised pathways. This enables the vast majority of our leavers to feel ready to confidently access the next stages of their education, employment or training.

In line with the above statement, we are proud to report that last year the school was able to broaden and enhance its curriculum offer to provide a wider range of subjects for our students to access around their personalised interests. As a result of this, our students were able to achieve a fantastic and successful set of outcomes across a broad range of subject areas. An overview of the outcomes for entry level, functional skills and GCSE pathways has been displayed below. Congratulations to all the students, staff and parents which have made these achievements possible!
