Job Title	Acting Headteacher

✓ Document Purpose

This policy reflects the values and philosophy of Longdon Park in relation to accessibility. It sets out a framework within which teaching and non-teaching staff can operate. This policy is drawn up in accordance with the Disability Discrimination Act, as amended by the SEN and Disability Act (SENDA). It draws on the guidance set out in "Accessible Schools: Planning to increase access to schools for disabled pupils", issued by the DCSF. Longdon Park caters for pupils with Autism and as a 'special school' focuses its resources to ensure equality of access for all pupils regardless of disability with individual needs assessed and resourced in order to ensure developmental progression in all areas.

- we are committed to providing an accessible environment which values and includes all pupils, staff, parents and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs.
- we are committed to challenging negative attitudes about disability and accessibility and to developing a culture of awareness, tolerance and inclusion.
- Longdon Park plans, over time, to ensure the accessibility of provision for all pupils, staff and visitors to the school.
- compliance with the DDA is consistent with the school's aims and equal opportunities policy, and the operation of the school's SEN policy; The school recognises its duty under the DDA (as amended by the SENDA)
- not to discriminate against disabled pupils in their admissions and exclusions, and provision of education and associated services
- not to treat disabled pupils less favourably
- to take reasonable steps to avoid putting disabled pupils at a substantial disadvantage

- the Accessibility Plan will be drawn up to cover a three year period. The plan will be updated annually.

✓ Definition of Disability

Disability is defined by the Disability Discrimination Act 1995 (DDA):

"A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities."

✓ Key Objective

Longdon Park will continue to develop the school with the following objectives in mind.

- To reduce and eliminate barriers to access to the curriculum and to full participation in the school community for pupils, and prospective pupils, with a disability.
- Improve access to the physical environment of the school, adding specialist facilities as necessary. This covers reasonable adjustments to the physical environment of the school and physical aids to access education.
- Increase access to the curriculum for pupils with a disability, expanding and making reasonable adjustments to the curriculum as necessary to ensure that pupils with a disability are as, equally, prepared for life as are the able-bodied pupils
- Improve and make reasonable adjustments to the delivery of written information to pupils, staff, parents and visitors with disabilities. Examples might include hand-outs, timetables, textbooks and information about the school and school events. The information should be made available in various preferred formats within a reasonable time frame.

In performing their duties, management and staff will have regard to the DRC Code of Practice (2002).

The school recognises and values parents' knowledge of their child's disability and its effect on his/her ability to carry out normal activities, and respects the parents' and child's right to confidentiality. The school provides all pupils with a

broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils and their preferred learning styles; and endorses the key principles in the National Curriculum.
